USE OF TOLL REVENUE CREDITS FOR PUBLIC TRANSIT CAPITAL PROJECTS

It is the purpose of this policy to ensure that the Department of Transportation makes available the use of toll revenue credits as soft match on selected federally assisted public transit capital and planning projects.

It is the policy of the Department to make available the option to use toll revenue credits, authorized by ***Title 23 U.S.C. 120(i)(1)***, to Florida transit systems for use as soft match on eligible federal transit capital and planning projects. On an annual basis, the Freight, Logistics, and Passenger Operations Administrator will be responsible for notifying Florida's transit systems of the availability of toll revenue credits and for approving the use of toll revenue credits on proposed transit capital and planning projects.
